

VOLE GUARDS

Standard guards delivered in nests of three, 45mm to 55mm in diameter.
Standard plus guards delivered in nests of two, 65mm and 75mm in diameter.

Heights

0.2m: Voles

Construction

- Lightweight for ease of transport and handling
- Longitudinally rigid so vole guards can easily be pushed into the soil to seal off the base
- Designed to split to allow for tree growth

Materials

- 100% British wool
- A polyol made from ethically sourced natural and renewable products
- An innovative custom polymer designed and made exclusively for NexGen

Durability

- Long-term resistance to water and premature microbial degradation
- Starts to break down after five years, depending on location, tree canopy, soil type and microbe content
- Pollution free guarantee
- 5-year useful lifetime warranty

Degradability

- Biodegradable and environmental degradation
- Breaks down by microbial (fungal, algae, mosses and other soil organisms) and environmental degradation (UV, rain, ice and wind)
- Ecotoxicity tested and pH neutral

Packaging

- Compostable bags in boxes

Because we make our vole guards from biodegradable materials, they can vary in colour over time. These variations help the guards blend naturally into the countryside and do not affect how they perform.
